

P120

Special fiber laser cutting machine for round tube

Industry Application

Auto parts, metal bathroom, hardware, stainless steel daily necessities, strollers, etc

Designed for round tubes

- ✓ Replace sawing machine blanking
- ✓ High efficiency, energy saving, pollution-free
- ✓ Standard equipped with automatic feeder
- ✓ Fully automatic processing saves manpower

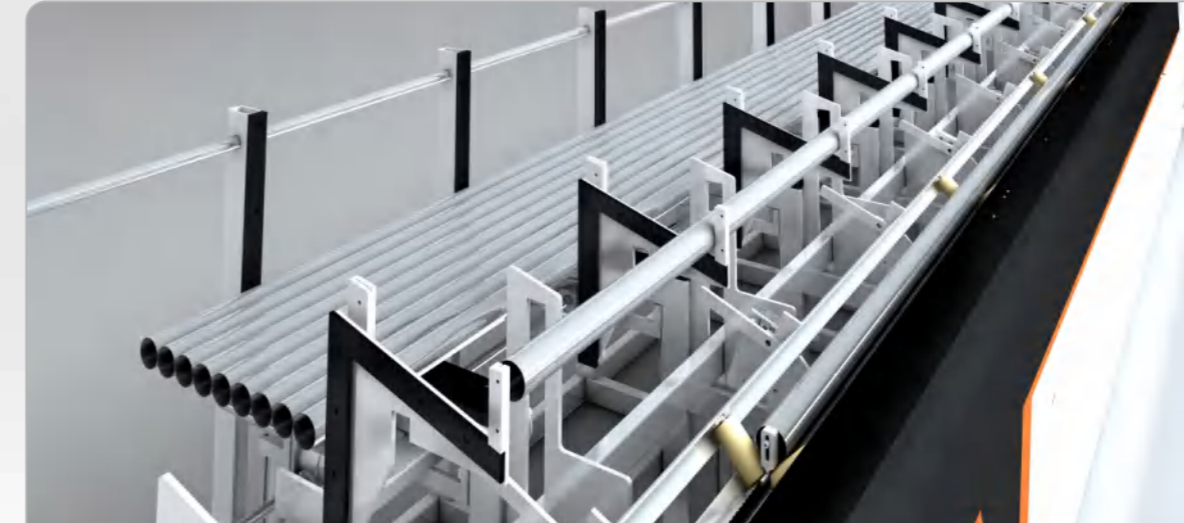

Technical Parameters

Pipe diameter range: Round ϕ 20mm- ϕ 120mm
Max feeding range: 2000mm- 6200mm
Laser power: 1000W/1500W/2000W/3000W
Max rotate speed: 80r/min

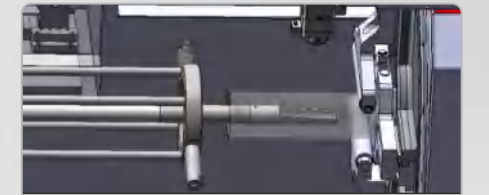

Positioning accuracy: 0.05mm
Repeat positioning accuracy: 0.03mm
Max positioning speed: 60m/min
Acceleration: 0.8g

Machine Details

11 12

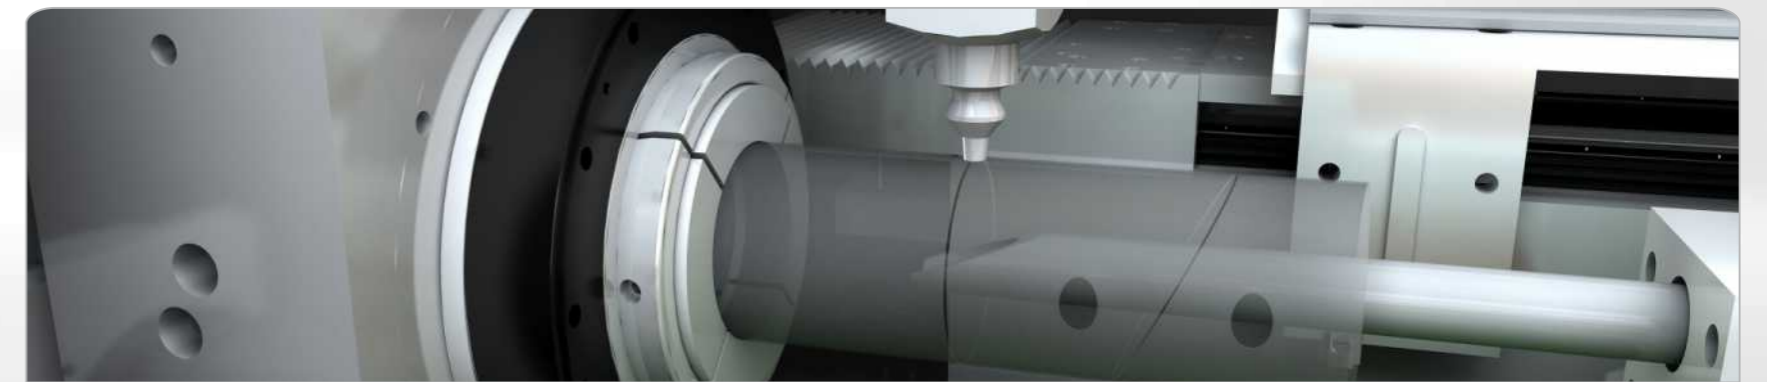

Batch round pipe
auto loading

Auto deslagging
part formed at one time without subsequent processing

Track collection
realizing continuous and uninterrupted processing

Bevel, punch, cut off
Multifunctional cutting, not just cutting
